Ref: WFC/B-737-800/2013  
October 22, 2013

**PROPOSAL FOR ACQUIRING B-737-800**

Management has decided to acquire A-320 aircrafts on dry lease which will be inducted by first week of May-2014. However, in order to manage the operation smoothly, management has desired that four B-737-800 aircrafts may be acquired on wet lease for two months. The acquiring of these aircrafts process is about to complete. On wet lease, pilots are provided by the lending company.

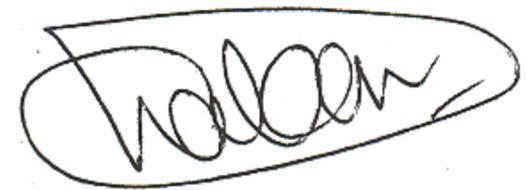

2. A meeting on the matter was held in the office of Managing Director-PIA under his chair which was also attended by following;

Capt. Humayun Jamil	DMD Operations
Capt. Khalid Hamza	Director Flight Operations
Capt. Suhail Baluch	President, PALPA

3. President PALPA informed that PIA has its own pilots rated on B-737-300 to 800, hence the acquiring these aircrafts on wet lease with pilots of the lending company will cost more than the option to be exercised with acquiring aircrafts on damp lease and our own pilots be utilized for the purpose. He also informed that PIA pilots will required flying permit from Civil Aviation Authority of Czech Republic to fly the aircrafts registered in their country and differences course on the B-737-300 to B-737-800.

4. The Managing Director agreed to the proposal by President PALPA to send required crew for conversion course for B-737-800 after fulfilling the abovementioned requirements.

5. Submitted for approval for necessary instructions.

Chakar Ali Shah
