Capt. Zarak Khan
General Secretary
Pakistan Air Lines Pilots' Association

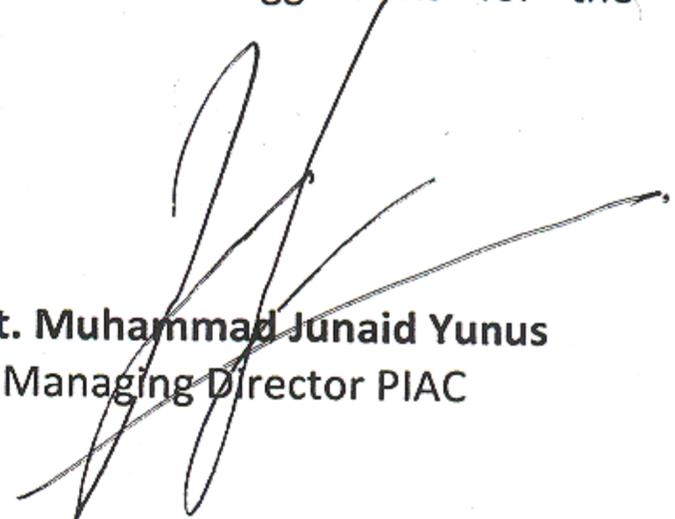

Induction of B-737-800S on Wet-Lease

Please refer to your letter No. PALPA/G/06/479, dated December 21, 2013 addressed to the Director Flight Operations with a copy to the undersigned.

2. The Wet Lease aircrafts mentioned in your letter are on temporary basis for two to four months only as a "Stop Gap Arrangement", till we are able to get aircrafts on Dry Lease. The results on the fuel saving are very encouraging, copy of the same is enclosed.

3. You are well aware that ECC had approved acquiring of 05 aircrafts on dry lease out of which we will be getting 03 from GECAS starting April 2014 onwards. Training of Pilots for A-320 is being scheduled. We are also trying to get 15 more aircrafts, Tender for which will be floated in January 2014 the moment we know the type of aircrafts, training for which will also start immediately. We only request that you should bear with us for few months after which we will have the exact schedule of getting 18 Narrow Body Aircrafts including the one for which the process has already started (Insha Allah).

4. We appreciate your interest and any further suggestions for the betterment of the airlines are always welcomed.

Capt. Muhammad Junaid Yunus
Managing Director PIAC

Copy to: Chairman PIAC
PRESIDENT PALPA.
